Friedrich Reimoser, born October 13th 1952 in Weiz (Styria, Austria), married, 5 children.

Education and professional experience

- Study: October 1973 bis January 1979.
- 1979: Degree in Forestry, University of Natural Resources and Life Sciences, Vienna, Austria.
- 1979-1982: Assistant at the Institute of Silviculture, University of Natural Resources and Applied Life Sciences, Vienna.
- Since 1982, apart from a one-year intermission from 1988 to 1989 when working with the Austrian State Forests (action "Scientists for Economy"), at the Research Institute of Wildlife Ecology, head of the Department of Ecology, Wildlife Management and Conservation since 1990.
- 1985: Ph.D. "Interrelation between silviculture and wildlife ecology".
- Since 1990 lectureship at Vienna Veterinary University and at the University of Natural Resources and Applied Life Sciences, Vienna.
- 1995: Post-doctoral lecture qualification for "Wildlife ecology and wildlife management". University of Natural Resources and Life Sciences, Vienna
- 663 publications in journals and books (see publications).
- about 710 presentations in 28 countries, mostly invited (Belgium, Bulgaria, Denmark, Germany, England, Finland, France, Georgia, Greece, India, Italy, Croatia, Kosovo, Liechtenstein, New Zealand, Netherlands, Norway, Austria, Poland, Russia, Scotland, Switzerland, Slovakia, Slovenia, Spain, South Korea, Czech Republic, Hungary).
- about 80 projects (EU, FWF, FFG, ÖAW, other); see projects (selection).
- Teaching at the University of Natural Resources and Applied Life Sciences, Vienna, and at the University of Veterinary Medicine Vienna. Supervision of 64 diploma/master theses and 12 dissertations at several Universities (BOKU Vienna, VetMedUni Vienna, Uni Vienna, Uni Graz, Unis Göttingen and ETH-Zurich).
- Since November 2012: professor emeritus; appointment as honorary professor at the University of Natural Resources and Applied Life Sciences, Vienna; furthermore teaching assignments and project support.

Activities for organisations

- President of CIPRA-Austria (International Committee for Protection of the Alps), 1997-2000.
- Member of ISCAR (International Scientific Committee on Research in the Alps)

- Member of the “New York Academy of Sciences”
- Member of the “Wildlife Society”
- IUCN-member (European Sustainable Use Specialist Group)
- CIC-member (vice president large mammals Europe-Asia and scientific expert)
- Member of the scientific committee in national parks (NP Bavarian Forest, NP Hohe Tauern, NP Thayatal, NP Donau-Auen) and in the Wilderness area Dürrenstein
- Member of the scientific committee of DJV (German hunting society)
- Scientific project coordinator of the Foundation for Environmental Studies (FUST – Tyrol)
- Reviewer for several scientific journals

Current focus of work

- Wildlife Ecological Spatial Planning (WESP).
- Integrated sustainable wildlife management – sustainability indicators for hunting, forestry, agriculture, and recreation management.
- Interactions between ungulates and forest vegetation; development of monitoring methods.
- Impacts of forestry on wildlife habitats, and habitat susceptibility to game damage.
- National park research; wildlife management strategies conform to national parks, integrated monitoring systems.
